When Performance Matters... Only a **CORDED** Headset will do!

You just can't beat the performance of a corded headset for exceptional sound, durability, and supreme comfort! Whether you're outfitting a busy call center or buying a headset for yourself, we've got an exciting array of headsets to match your business needs!

Top 5 reasons to go corded!

- Superior, interference-free sound
- Increased comfort and productivity
- Durable and built to last
- Widest variety of headset styles
- 99% compatibility with your corded phone

Plus...

- FREE Lifetime Technical Support
- 2-Year Warranty on most corded headsets

Two great headset brands!

Hello Direct produces the most durable and reliable headsets at an exceptional value!

GN Netcom develops headsets with the most advanced technology!

How to choose a headset:

1. Select your headset wearing style.

Over-the-head
Durable, super-stable fit.

Over-the-ear
Does not interfere with your hair.

Convertible
Provides up to 4 wearing styles.

- Earloop
- Earhook
- Over-the-head
- Behind-the-neck

2. Choose your microphone boom style.

For QUIET offices...
SoundTube

For NOISY offices...
OP or Flex

For VERY NOISY offices...
EX, Solo II, or Ultra Noise-Cancelling (UNC)

3. Select an amplifier for your standard phone.

Most standard office phones require an amplifier unless they have a built-in amplifier (Direct Connect phones). Amplifiers provide power between your phone and headset... plus, put volume, mute, and more right at your fingertips!

Hello Direct Standard Amp

Great headset sound and clarity!

GN Multimedia Amp

Talk on the phone and on the Internet!

GN Standard Amp

Broader bandwidth for a more natural sound!

GN Digital Amp

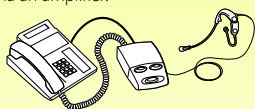

Dramatically reduces incoming noise!

Headsets for all types of phones!

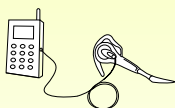

Standard Office Phones

Our Hello Direct and GN headsets connect to any standard office phone via an amplifier!

Cordless, Cordless, and Cell Phones

Hello Direct headsets plug into the 2.5 mm jack on your cordless, cordless, and cell phones.

Direct Connect Phones (with a built-in amplifier)

GN headsets are designed to work with phones with a built-in amplifier.

IP Phones and Computer Use

GN IP and USB headsets work with IP phones, softphones, music, and multimedia applications.

Low price, call center tough!

The GN2000 is rugged enough to take the hard knocks of any phone-intensive workplace! This dependable top performer offers great sound and all-day comfort, too.

**Plug and play
with major-brand
SIP phones!**

Fully loaded IP PBX system!

The Bizfon 8000 is an IP phone system that's loaded with PBX features such as built-in voicemail, auto-attendant, conferencing, intercom, paging, and much more. Built using a "System-on-Chip" design, the Bizfon 8000 integrates all essential PBX functions on one chip, which reduces hardware costs and increases system stability. To make installation easy, the Bizfon 8000 supports plug-and-play configuration with BizTouch SIP phones as well as any other brand of SIP phone.

Bizfon 8000 IP Phone System includes:

- Built-in 4-port FXO gateway, which connects to existing analog phone lines.
- 36-extension support to grow with your business.
- Up to 12 simultaneous calls.
- Music-on-hold and paging audio connectors.
- Key system emulation.
- Full PBX features including voicemail, auto-attendant, intercom, paging, conference server, cell phone integration, SIP trunking, and more.
- Works with BizTouch SIP phones such as those shown at right, as well as all other brands of SIP phones.

Item #30329 Bizfon 8000 Control Unit **\$2,499.00**

BizTouch SIP Phones:

- Works with Bizfon 8000 IP Phone System.
